

Steel Palettes & Scrapers

Kidney shaped and oblong steel palettes are used for smoothing leather-hard clay or plaster.

They are available in the below shapes and sizes at thicknesses of 0.127mm (flexy) or 0.254mm (stiff)

Note : Oblong palettes can be requested and manufactured at greater thicknesses for tougher tasks.

*Please note that Serrated Kidney Palettes are only available at 0.254mm thickness.

Shape	Length (mm)	Width (mm)
Kidney	89	45
Kidney	100	45
Kidney	127	48
Kidney (Serrated)*	100	45
Oblong	100	50
Oblong	127	50
