

INTERKILN Advanced Technical Keramos LLP

Innovative Ceramic Solutions

Vision

Global Impact for Innovative marketing and cost effective, energy savings acid resistant supply of Technical products in Ceramics and high temperature Refractory field.

HISTORY

M/s. Interkiln Industries Ltd. (IIL) was incorporated on 24.11.1983 in the name of M/s. Interkiln Refractories & Ceramics Pvt. Ltd. and it was subsequently converted into a deemed Public Limited Company in 1995. Interkiln has also set up new subsidiary company in 2019 with the name of Interkiln Advanced Technical Keramos LLP under the Interkiln group of companies.

Interkiln is engaged in designing and manufacturing Industrial refractories like basic refractories, high alumina refractories and other special refractories. Interkiln offers an extensive personal service that combines material selection with in-house, manufacturing technique, ensuring that our customer's requirements are met in full.

Interkiln is also engaged in design manufacturing and installation of Acid Resistant Bricks for various Industrial Application.

At present Interkiln is deeply involved in designing light weight refractories especially for Ceramic Kilns, Cars etc. to reduce the energy consumption of any ceramic kiln.

Director

Interkiln was brainchild of by Mr. Kirit D Sanghavi. He was a qualified Ceramic Engineer from BHU-IIT, India. He had done specialization in Ceramics as well as Post Graduation in Management Studies from North Staffordshire Polytechnic, UK. He had more than thirty five years of experience In refractories and ceramics including 5 years in UK.

Currently, Interkiln is headed by Mr. Kushang K Sanghavi. He is qualified Materials Engineer from Liverpool University, UK. He has done further studies in Masters in Business Administration from Robert Gordon University, UK. He has more than 13 years of experience in ceramics and Oil and Gas Industry.

Benefit of special hollow blocks:

- Save energy in kiln car up to 40%
- Reduce kiln car refractory mass
- Zero maintenance of kiln car with hollow blocks
- Reduction in labor work as No Maintenance require with hollow blocks
- Quick & Easy installation (No masonry work require)
- 5 years Warranty of special hollow blocks.

Traditional kiln car (with bricks)

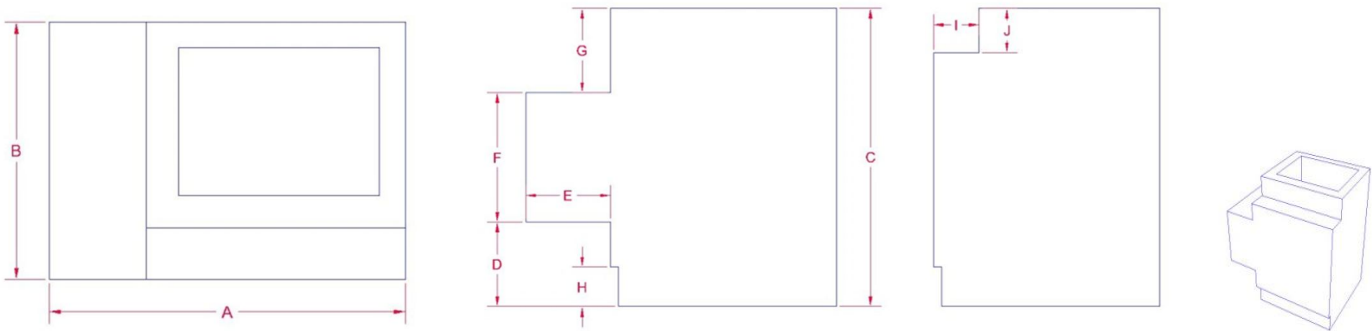

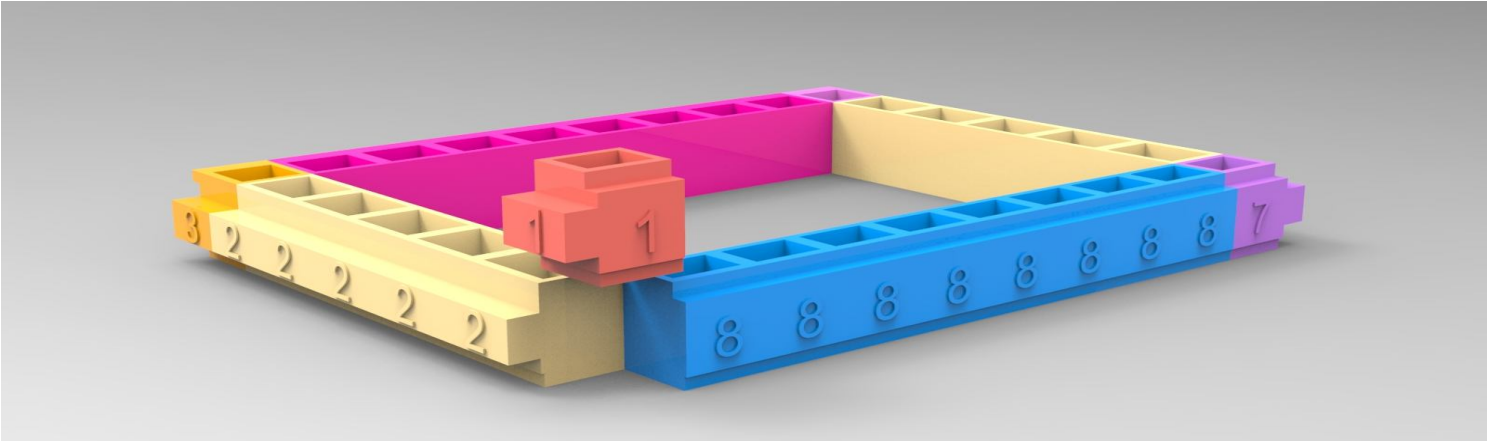

Kiln car with Special Hollow Blocks:

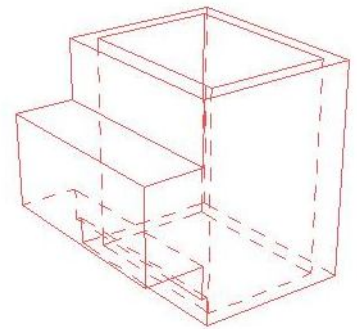

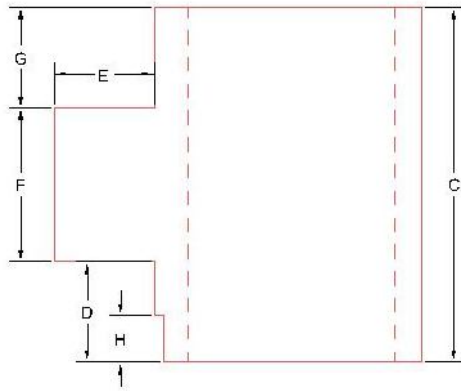

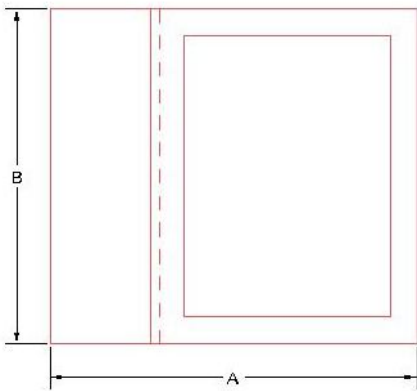

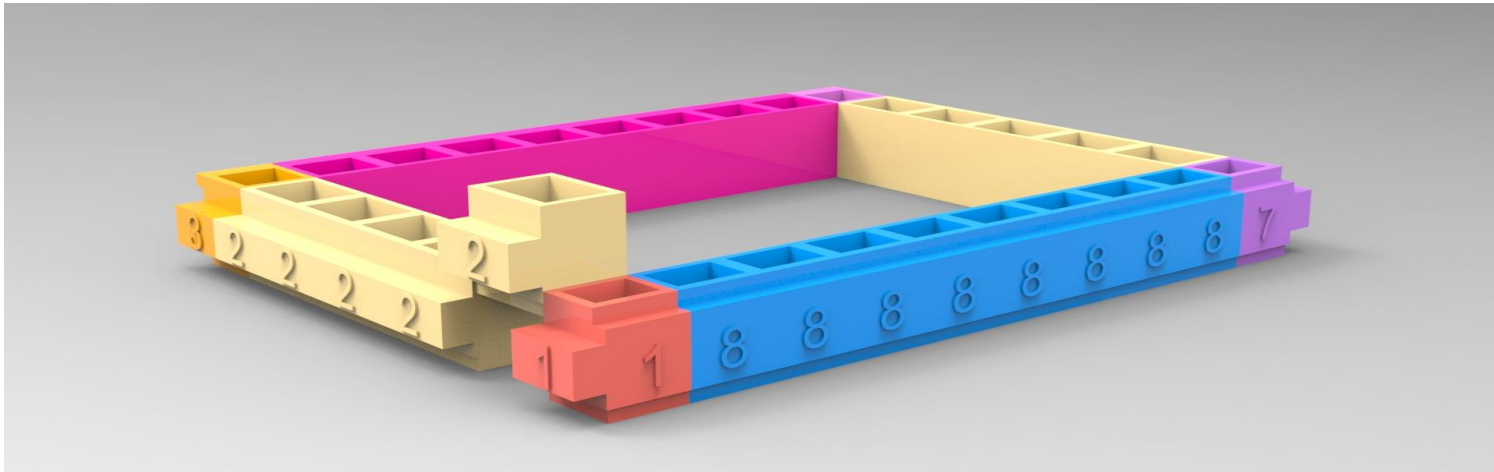

CORNER BLOCK – NO.1
